CAN DO: Participants in the Amazing Race Corporate Challenge included Margaret Doddridge from I-Med Network, David Wilson from Expr3ss!, Briony Willoughby from CanDo and Darren Starkey from ASX.

All in to help kids

LOCAL companies were put through their paces to raise money for children's charity CanDo on the weekend for the Amazing Race Corporate Challenge.

Inspired by the television series, the Adelaide version led 25 corporate teams across the state over two days to raise \$130,000 for CanDo4Kids and Deaf CanDo.

Willoughby said teams were put through a series of physical and mental challenges.

"Not only do team members need to have brawn to win this competition, but also brains," she said.

Online recruitment tools provider Expr3ss! Hire Confidence was one of this year's participants, providing a virtual race skills test to racers such as the ASX and I-Med Network.

Expr3ss! Hire Confidence regional manager **David Wilson**

said the business had a history of supporting CanDo Group Charities.

"It's fantastic that we've been able to assist CanDo Group with this fundraising initiative," he said.

"It not only provides support to so many, it also brings multiple benefits to corporate teams as well as individual members - everyone comes out a winner."
